Bilateral Meetings

- Friday (02:00 pm - 07.00 pm) Please add the cooperation profile

Description

RR Projects have developed a novel MACC (Modular Air Cooled Condenser) as an efficient cooling solution for Concentrated Solar Power plant

Organization Type

SMEs

Areas of Activities

Water technologies, space application to agriculture, environmental management

Energy production, renewable energies

Technological Offer

MACC (Modular Air Cooled Condenser)

An efficient and effective solution to cooling steam in Concentrated Solar Power plants. The MACC consumes no water during operation, has a low embodied energy, and requires minimal resources for installation; ideal for remote locations.

Cooperation Offered

1. Outsourcing co-operation
2. Technical co-operation
3. License agreement
4. Manufacturing agreement
5. Sales / Distribution

Cooperation Requested

1. Investment/Financing
