- Friday (02:00 pm - 07.00 pm) Please add the cooperation profile

Description

Sirius Electric is an Italian company based in Vigevano (PV) leader in the welding market of thermoplastic materials since 20 years, with proven experience in the technology innovation. We manufacture and sell ultrasonic welders, hot plate welders, vibration welders and friction welders also known as spin welders. The different welding technologies used allow us to solve the various assembling customer requests of thermoplastic material parts.
