## Bilateral Meetings

- Friday (02:00 pm - 07.00 pm) Please add the cooperation profile
- Saturday (10:00 am - 01:00 pm) Please add the cooperation profile

### Description

Fresnex GmbH is a young company that provides an innovative solar steam generation system for industrial applications, which is competitive to fossil fuel systems without subsidies in sunny regions, for example in Africa. This innovation allows automated pre manufacturing and provides a fully functional mirror module for solar sun concentration. Mirrors, drive and the alignment system are already preassembled on the baseplate. The work on site is reduced, a big advantage especially for small projects. All these benefits sum up to a significant lower system price for the end-user (- 30 % and more).

### Organization Type

SMEs

### Areas of Activities

**Energy production, renewable energies**

### Business Request

## looking for partners for sales & installation of solar steam systems

We offer a new technology and are looking for local partners to integrate solar steam systems in industrial sector

Keywords: solar steam generation for industry

### Cooperation Offered

1. Technical co-operation
2. License agreement

### Cooperation Requested

1. Technical co-operation
2. Sales / Distribution

### Technological Offer

## **innovative solar steam generation system for industrial applications**

Fresnex GmbH is a young company that provides an innovative solar steam generation system for industrial applications, which is competitive to fossil fuel systems without subsidies in sunny regions, for example in Africa. This innovation allows automated pre manufacturing and provides a fully functional mirror module for solar sun concentration. Mirrors, drive and the alignment system are already preassembled on the baseplate. The work on site is reduced, a big advantage especially for small projects.
