

Camilla Pandolfi

CEO

Pnat srl

<http://www.pnat.net>

Description

Pnat is a startup, spin-off of the University of Florence operating in the fields of sustainable architecture, bio design, education, urban ecology, material engineering. Pnat is an emerging think tank of designers and biologists with the aim of merging plants, research, technology and creativity. Mimicking patterns of natural processes lead to face emerging problems such as environmental changes and depletion of resources in a sustainable way. Our team uses bio-mimetic applications as a tool to establish a new design approach. At the same time we investigate innovative methods of cooperating with plants to set up new relationships between natural and artificial environments.

Organization Type

SMEs

Areas of Activities

Agro-food manufacturing, food security, safety and quality control, food traceability, food conservation and shelf life

Water technologies, space application to agriculture, environmental management
